

# EUREKA! RECYCLING

Since our creation in 2001, Eureka Recycling has worked with recyclers like you to make a difference in our community.

## Green Jobs

Eureka Recycling has created nearly 100 good, green collar jobs in the Twin Cities — jobs that stimulate economic growth while caring for the environment. Every person on our team earns a living wage while making it possible to live greener in your community.

## Our Community

Eureka Recycling has given nearly \$5 million to the communities we serve. We set a standard in Minnesota by giving back revenue from recycling sales.

## The Environment

Eureka Recycling has recycled over 440 million pounds of your bottles, cans, cardboard, and paper. We've made sure the materials from our facility were really recycled into new products. Together we have conserved energy, natural resources, and reduced the amount of greenhouse gas emissions equal to taking more than 75,000 cars off the road for a year.

Eureka Recycling is much more than a recycler. We are a nonprofit organization that believes waste is completely preventable and we're here to serve as your partner in waste reduction. From reuse to recycling and from composting to zero-waste events, with your help we can reach a waste-free tomorrow!
